What You Will Learn & Why You Should Attend:

Presented by MICPEL and the Collaborative Practice Training Institute, this introduction to Interdisciplinary Collaborative Practice is an interactive experiential program in which the participant will come to understand what collaborative practice is, and how it differs from other ADR and litigation models. This program is interdisciplinary and is suited for attorneys, mental health professionals interested in either coach or child specialist roles, and financial professionals. After developing the basics of collaborative practice, the participant will go hands-on, step-by-step, through a collaborative case. Breakfast and lunch and two breaks will be provided each day.
